Outline Dimensions

Battery Charger 6V/12V 1.25A

Your Batteries' Doctor

AOPEC Chargers give you a revolution in battery charging technology. Its mutple stage desulfation, charging and analysis ensures a fully charged and well maintained battery every time. AOPEC chargers are compact and durable, allowing it to operate in a compact, dusty, and humid environment.

Functional Characteristics

- MCU- controlled
- 5-Step charging process
- LED charge steps display
- Error warning
- Surge protecton
- Battery reverse polarity protecton
- Over-voltage protecton
- Over-current protecton
- Short-circuit protecton

Main Technical Data

Part Number	Input Voltage	Input Frequency	Output Voltage	Output Current	Dimensions (inch)	Operating Temperature
BCTY125	100-240VAC	50/60Hz	6V / 12V	1.25Amp MAX	4.02*1.97*1.22	-4°F~104°F

Perfect For

Battery Charger 6V / 12V 1.25A
